— CONTENT FOCUS

What I *create*

01

Skincare & K-Beauty

Serums, ampoules, moisturizers and SPF — tested over real weeks, not one take. Ingredient talk in plain language, so my audience understands what they're buying.

02

Beauty Tools & Devices

Cleansing devices, hair tools, LED and everything in between — shown in use, with the honest verdict on whether it's worth the counter space.

03

Everyday Smart Finds

The small things that quietly make a day easier — home, organization and lifestyle picks my audience saves and comes back for.

04

Unboxings & First Impressions

The real reaction, unscripted. The format that travels furthest on TikTok — and the one that sends people straight to the listing.

— BRAND COLLABORATION

What you *receive*

01

On-Listing Video Review

A polished video published on your Amazon listing, where it converts shoppers at the exact moment they decide.

02

Social Amplification

Your product across TikTok, Facebook, Instagram and YouTube — new eyes far beyond organic Amazon search.

03

Beauty-Grade Production

Clean lighting, styled surfaces and real skin — content that looks like your brand deserves, without a studio budget.
